College of Computing Sciences & Information Technology

Our Guidance Values
Right Philosophy|Right Knowledge|Right Conduct

Vision

To be internationally recognized as a premier institution of excellence providing quality education, research and consultancy services to the global society.

Mission

Our endeavor is to impart knowledge and develop critical skills necessary to succeed both in professional and personal life by promoting learning supported by world class faculty, infrastructure, technology, curricula and collaborative teaching and research with premier institutions in India and abroad.

About CCSIT

The Teerthanker Mahaveer College of Computing Sciences and Information Technology came into existence in the year 2014. The college was established by the university with the aim of providing relevant, essential, upgraded education to the young aspirants in the field of computer science and engineering, including computer applications. In recent times and the years to come there will be increasing demand of skilled manpower in the domain of Computer Science and Engineering because of the 'Digital India' mission projected around the globe by Government of India. The College of Computing Sciences and Information Technology is the center for all Computer Science related programs run by the university as per the standard UGC norms.

The college prepares young engineers to acquire essential knowledge about technological skills that allow them to independently conceptualize, design, develop and implement Computer Applications fulfilling the Software demand for the world. The college offers wide range of academic programs at undergraduate, postgraduate and doctoral level to cater the needs of corporate world.

College has adopted effective teaching methodologies. The curriculum is periodically updated by the Board of Studies, to provide upgraded technological knowledge and skill set to the students. There exists a flexible credit system that enables the students to acquire relevant knowledge and skill. Student's participation in workshops, seminars, conferences and various co-curricular activities is an essential component of the learning pedagogy. Eminent academicians of repute, renowned scientists and researchers are invited for interaction and knowledge sharing with the students. The college is supported by competent and experienced core faculty with expertise in various areas of Computer Science and Applications.

MESSAGE BOARD

Chancellor's Message

I am happy to learn that the College of Computing Sciences and Information Technology, Teerthanker Mahaveer University, Moradabad, is going to publish its first quarterly magazine "Computing Vision" in which the young, enthusiastic and bright minds will contribute their creative and literary skills.
It is an excellent initiative to inspire the youth for strengthening their skills which is indeed laudable. I feel that such efforts will play a pivotal and significant role in this regard.
I extend my whole hearted support and best wishes to all the members of C.C.S.I.T. for such an endeavour and hope that this will excel in all fields and carve a niche for itself.

Shri Suresh Jain

Group Vice Chairman's Message

It gives me great pleasure to learn that the College of Computing Sciences and Information Technology, Teerthanker Mahaveer University, Moradabad, is bringing out its first quarterly magazine "Computing Vision".
Creativity is what distinguishes human being from the rest of the living world. The success in life depends upon creating high ethical and moral values besides imparting and inculcating up-to date knowledge and skills. I sincerely appreciate the efforts of the editorial board and all those who have contributed for this magazine to make it enterprising.
I offer my good wishes for the success of this initiative.

Shri Manish Jain

Vice Chancellor's Message

I am glad to learn that the College of Computing Sciences and Information Technology, Teerthanker Mahaveer University, Moradabad, is bringing literature centre stage through its first quarterly magazine "Computing Vision".
Every step towards progress has been made possible due to the awe-inspiring capacity of the human mind to invent, innovate and create. A magazine that provides a platform for creative thought could be an important link in the chain of social change and progress. I do hope that the magazine will be a source of inspiration to the younger generation and infuse a renewed sense of commitment in the youth for the society and the nation at large.
I take this opportunity to offer my best wishes for the success of this initiative.

Prof. Rakesh Kumar Mudgal

Principal's Message

It has been decided by all the members of CCSIT to bring out a 'Student magazine' comprising of general events articles, poems, short stories etc. I am so thrilled with this proposal and I immediately responded, "please go ahead; and do it". Sooner the better and let it be a student's magazine in the true sense - a magazine by the students, for the students (of course, including the faculty) and published by the students. I, on behalf of all (students, faculty and staff), wish to express my deep appreciation and gratitude to all the members of the organizing group who worked hard to give real shape of this task. This is certainly an important happening in the infancy of CCSIT, Moradabad, as the future course is, by and large, always determined by the initial steps taken. It will provide a platform for the student community to pen down and share their innovative ideas and contribute to the growth of academics. This would be an another milestone towards achieving the real and meaningful purpose of College of Computing Sciences and Information Technology, which is an integrated approach to computer education and research making the institute of international standards. Please accept my warm and heartfelt congratulations on the publication of "COMPUTING VISION".

Prof. Rakesh Kr. Dwivedi

HOD's Message

It gives me immense pleasure to pen a few words as prologue to our in-house magazine 'COMPUTING VISION'. I congratulate all the contributors and the editorial board for bringing out such a beautiful magazine. Empowerment of students for their all round development through education is our cherished motto. Today education means much more than merely acquiring knowledge. It is an acquisition of knowledge and skills, building character and improving employability of our young talent, the future leadership. Come on, let's give our best and make this institution a modern temple of learning through our diligence, devotion and dedication. Wishing you all the best...!

Dr. Ashendra Kumar Saxena

Chief Proctor's Message

Discipline is the key to success - this holds true for all times and for all people of all age groups. But for students it holds a great value. Discipline means a way of being honest, hardworking, following strict rules and regulations, social norms and values. Discipline makes students good and perfect to behave or deals with the things. It is an ornament of the students. People appreciate the disciplined students. Discipline leads the people towards a perfect way of living. Students must adopt the disciplinary aspects of every performance that makes them successful all the time. Students who are not disciplined, do not achieve desired success. They face lot of problems in their life. They should be taught to be in discipline as discipline plays a great role in the life of students to build a bright career.

The discipline taught to the students should be transformed into self-discipline. This can be achieved by self-motivation of students. In times of cut-throat competition and where time is extremely precious, self-discipline can help them to be real successful. Self-discipline is something that students should aim to achieve. It is not an asset one can buy from the market. It is a rare quality which one has to inculcate, nurture and cherish from early childhood. Through self-discipline, student can have concentration which will be turned into newer heights of academic excellence. Success will be theirs, who value and practice self-discipline and abide by it all times.

Shambhu Bhardwaj

Orientation Day

The Orientation programme of CCSIT, Teerthanker Mahaveer University for the academic session 2015-16 was held on 26 Aug 2015 from 10:30 AM to 1:00 PM in the university auditorium.

Welcome speech was given by the Principal of the college, Prof. R.K. Dwivedi who informed the students about University background, the program of studies and the study environment which will give the opportunities to the students to learn more about the cultural diversity. On this occasion the Chancellor of the university Shri. Suresh Jain extended his warmest welcome to the new students and said, "You will discover yourself in the campus which has the greatest number of the diversity of the culture represented here in one campus." In his welcoming remarks, Vice Chancellor Prof. R.K. Mudgal said, "We will provide information to help you familiarize with the university, its programs, academic and extra-curricular activities, policies, services and campus resources."

A senior student, who is studying B.Sc. Computer Science in CCSIT, sharing her experience to the new students said, "You will meet the world in TMU and it is not the advertisement. It is the truth." She also said, "CCSIT has a very good library. When you want the knowledge, here you will get the knowledge. Don't hesitate to go to the library and whatever your field of study is, you'll find the books you need there." "Don't be lazy," Urja advised the new students saying, "Because faculties in CCSIT don't like lazy students, so you have to show them that you came here to get a good grade." In addition, to this other division's heads also gave information about the rules and regulations that the students need to know, i.e., the attendance, grading system, examination rules and discipline etc.

At the end of the programme Dr. Ashendra Kumar Saxena Head of the Dept. delivered the vote of Thanks.

CELEBRATION OF GANESH UTSAV BY ANIMATION STUDENTS

On the occasion of GANESH CHATURTHY College of Computing Sciences and Information technology celebrated GANESH UTSAV on Sept. 17, 2015. This event was organized by CREATIVE CLUB in the form of a DRAWING COMPETITION among the Animation students of CCSIT. All students of B.Sc Animation participated with great enthusiasm and excitement. Students opened up their mind and enhanced their creativity. They offered their feelings to Lord Ganesh in the form of drawings.

The competition was held in 2 groups A and B. The 1st year students were placed in group A while the 2nd and 3rd year students were placed in group B. A panel of judges evaluated the drawings and declared Karishma as first and Prerna as second in A group and Shraddha Chaudhary first and Sonal second in group B.

Workshop on Anti-Addiction

On 2nd September 2015, a youth awareness workshop titled-" Welcome To The Addiction Free World" was organised by NSS Unit of CCSIT, TMU in collaboration with youth cell AWGP, Shanti Kunj Haridwar.

The focus of this workshop was to create the awareness among the youth regarding the ill effects of various types of prevailing addiction. The success in the life of students is greatly hampered if the student is involved in a sort of bad addiction. The experts from youth cell, AWGP, Mr Ashish Kumar Singh & Mr Manish Kumar delivered the session and motivated the students to lead disciplined and focused life. All the new entrants of session 2015-16 attended the workshop.

Engineer's Day

In the remembrance of Sir Mokshagundam Visvesvaraya, B.Tech Students of college of computing sciences and information Technology, TMU celebrated the Engineer's Day on 15th September 2015.

A celebration was inaugurated with lamp lightning by Honorable Chancellor Mr. Suresh jain ji, Group Vice Chairman Mr. Manish Jain ji, Vice Chancellor Prof.(Dr.) R.K. Mudgal, Prof.(Dr.) R.k.Dwivedi,Principal CCSIT. After the lamp lightening and Saraswati Vandana Honorable Chancellor Sir and Vice Chancellor Sir delivered most valuable speeches by remembering the achievements made by a great engineer Sir Mokshagundam Visvesvarayya. Prof.R.K Dwivedi (Principal, CCSIT) motivated the students for doing the constructive work to the nation as an engineer. Students also organized various Cultural programs, Quiz competition, Seminar and LAN gaming activities.

Tree Plantation

On 19th September 2015 an event on planting of trees was organized by CCSIT, TMU. The plantation was carried out by the principal of the college (CCSIT) Prof. R K Dwivedi and HOD's of various department. Various students also took part in the event. This was a very good initiative by our principal sir towards saving the environment which will motivated others to do the same.

PLANT TREES SAVE ENVIRONMENT

Rocking Fresher Party of MCA (LE)

Fresher's Party was organised by MCA (LE) students on 12th October 2015 at CCSIT. For the young new entrants, fresher's party is a wonderful moment to get introduced to the new college and the seniors. The event was charged up with number of performances by the students. Dancing, singing, poetry and shayaris were performed at the seminar hall of CCSIT. Talent Hunt contest was nicely coordinated by the seniors for deciding about the title of Mr Fresher and Ms Fresher. The Bollywood quiz entertained the audience and the party also had colourful DJ arrangements. All the students of MCA and the faculty members had a wonderful moment to be the part of this event. The purpose behind organizing the fresher's party is to make new entrants feel comfortable with the new college and to develop nice understanding and communication with the senior students. The student organizing team included senior MCA students - Shubham Sharma, Shakti Khanna, Krati Agarwal, Kritika Jain, Ramji Dwivedi, Bilal Rais, Aman Tomar, Manvendra Singh Raghav, Tansi Khanna, Neha Vishnoi, Sneha Singh, Shubham Singh, Anchal Agarwal, Shilpi Garg, Nitika. The event was concluded with blessings and blessings to the students from Principal, CCSIT.

Fresher Party of B.Sc. Animation

In college of computing sciences and information Technology, students of B.Sc. Animation celebrated the Fresher Party to welcome new students in the course. The rocking event was held in Seminar hall of CCSIT. Manas Agarwal and Sudhanshu Pandey tightly held the proceeding of party. Prof. R.K. Dwivedi (Principal CCSIT) blessed the students and guided them for future path. All freshers introduced themselves with confidence. Later on students enjoyed dance performed and finally MUSKAN SAXENA and HARSHIT JAIN were selected as Ms. and Mr. Fresher.

Student's Corner

Poem – “Save the Girl Child”

मत मारो कन्याओं को, ये हैं नींव हमारी।
बिना कन्याओं के सूख जायेगी, ये जीवन की वयारी।।
ना पत्नी ना बहन मिलेगी, न माता की ममता। एक दिन नर भी मिट जायेगे, अगर यूँ ही बनी रही
अब बात करें उन हथियारों की। जिनकी सोचने में भी शर्म आती है।।
खुशी है तो इस बात की, कि शूलों को बात अब समझ में आती है।
क्या होगा? एक बार सोचकर देखो। जब रहेगी ना कोई कन्या यहाँ।।
तब क्या होगा मर्दों का मर्दों से ही। विवाह के संजोग से सजेगा समा।।
क्यों मर्दों ने अब ये ठान लिया है। कि बेटे को ही गले लगायेंगे।।
बेटी गर गलती से भी आ गयी। तो उसकी विता वही सजायेंगे।।
अपनी नादानी पर वो एक दिन। सौ सौ आँसू बहायेंगे।।
जब कन्या होगी केवल एक। और दस वर स्वयंवर के ख्वाब सजायेंगे।।
तब उस लड़की को नही। लड़के को दहेज का भार लेना होगा।।
अपनी मनपसन्द साथी के लिए। Credit Card से Payment करना होगा।।
उस पर भी Recharge का Option हमेशा ही उसके साथ चलेगा।।
गर समय पर Payment ना की तो। Connection Cut का Risk उम्र भर साथ रहेगा।।
समाज में Save Girl Child अब। अपनी तूल पकड़ने लगा है।।
लड़की के पैदा होने पर अब। उसको जीवित रखा जाने लगा है।।
नही है किसी बात की Tension। कर देती है वो खुद का नाम।।
बहुत लिख दी कविता मैंने। अब देता हूँ पूर्ण विराम।।

Poem – कितनी दूर चला आया हूँ...

जिंदगी बनाने के लिए,
घर से दूर निकल आया हूँ,
सपनों को पाने की चाहत में,
अपनों को दूर छोड़ आया हूँ,
सुख साधन कितने ही समेट लूँ,
मेरा घर आज भी याद आता है,
चाहूँ तो सारी दुनिया को नाप लूँ,
आखिर मैं माँ के हाथ का खाना याद आता है,
बीमार जब होता हूँ तो इलाज तो मिल जाता है,
पर जब दवा न काम आती तो माँ का दुलार याद आता है,
अब तो बस कोसता हूँ अपने आप को,
की क्या करने चला आया हूँ,
जिंदगी बनाना चाहता था मैं ..
और जिंदगी से ही दूर चला आया हूँ...

THE ART OF SMILE

TOO OFTEN WE UNDERESTIMATE THE POWER OF A TOUCH, A SMILE, A KIND WORD, A LISTENING EAR, AND HONEST COMPLIMENT, OR THE SMALLEST ACT OF CARING, ALL OF WHICH HAVE THE POTENTIAL TO TURN A LIFE AROUND.

Actually there is no art behind it. Just that you were born to be happy, and you can show this happiness with that beautiful smile of yours.

To some extent, we all know how to spot a genuine smile, basically this formula:

Genuine smile = Crinkly eyes

We are all sensitive to this genuine scale, so why then is it that when we cross paths with a stranger or casual acquaintance in the elevator, we give them a fake smile? That 'polite smile'. You know what is being talked about. The lesson? Smile with your eyes! Feel it genuinely and it will come out naturally.

A smile is so simple yet so powerful. Some noticeable effects of externalizing your internal joy are:

People will be attracted to you-people will feel drawn to your energy. When you smile more, you will carry an aura and poise that will draw people to you. People will look forward to being around you, knowingly only that feel great around you. People on the street, at work, your friends etc. We all like and want to be around happy and cheerful people right?

Optimistic- you'll feel more positive about yourself and the world.

Happiness and joy- A smile is an expression of happiness and joy in you. Like an upward spiral, a smile will boost the happiness you feel.

Healthy- a smile can affect your internal state, which can affect your internal state, which can have physiological impact on your physical and mental health. Approachable- a smile is so welcoming and will make people feel more at ease.

Making other people happy- a smile has the power to make the other people feel good about themselves. It's heart-warming and has the power to cheer up others instantly. Smiles are contagious- others can quickly and easily catch it and will experience the above "side effects".

Take the smile challenge! Smile at strangers- you know those times when we cross path with a stranger or accidentally catch someone's gaze and we would suddenly look away in awkwardness or pretend we are looking at something else? Well, the challenge is to give them a big smile. A genuine smile, showing teeth and everything. I love to see people's reaction when you smile at them and they aren't expecting it. Some blush, and others are surprised and smile back, which makes me feel all arm inside.

Smile at homeless people and street hagglers- i live in a part of downtown Seattle with lots of street hagglers and homeless people. People often ask me whether i get "harassed" often. The answer is: sometimes. But they really are very nice, just like the rest of us. They too need attention and acknowledgment. So, give them a gift worth more than money, don't try to ignore them. Turn to them, smile warmly and tell them how you feel. If you don't feel like giving money, just tell them "sorry, i don't have change now. Have a beautiful day!" Similarly, if someone is trying to sell something or 'hitting-on' you, simply turn to them, smile and say "no thank you". I've found that it takes more energy to ignore and pretend to be very serious, than it is to smile. So smile! Make someone's day!

Smile fully- you know that half smile we give people when we're trying to be polite? Like on an elevator, bumping in someone at the front door, or waiting in line. Why not practice giving them a real smile? It'll be less awkward and you can potentially make someone's day, or a new friend!

Smile at work- living under a routine, we can easily be in a zombie-like state when coming into work. We zip into work quickly following the same routines we've habituated. Our target is to get to work, and we can sometimes forget about the people around us, in other cubicles/offices/departments. So, the challenge is practice beaming with smile as you come into work. Smile genuinely with people you meet. Be completely pleased to see them. Make it a focus for the day, to bring more happiness into the lives of others. Ask them genuinely and infused with energy, "how are you"? how was your weekend? Watch the smiles surface on their face.

To bring smiles into your life smiling journal- for 2 weeks, record the moments that brought out your wonderful smile. If you are ever feel down, flip through this book to be reminded of things that make you smile. Experience those moments and notice your state shift to be a positive one. you cannot be both angry and smiling at the same time. I learned in physiological psychology that if the physical action conflicts with that of your feeling, the feeling inside will shift to match that of your outer sensation. One way to shift your emotion in to change your physiology.

Humour- make a point to watch a comedy movie. To go a comedy club. Hang out with people who make you laugh.

Go on a self date- when we feel more connected with ourselves, we feel more joy and tend to naturally smile more.

Find innocence - observe a small child or a pet at play with total ease and freedom. Watch their innocence, enjoy their presence and yours. Are you smiling? Do you feel happy for them? That's because you are connecting with the same innocence within yourself.

What makes you smile? Who made you smile today? Share your joy and happiness! Want to see you *smiling* !!

TREASURER HAPPINESS - Benevolence, Desires & Determination

As the sunlight starts overshadowing the moonlight, chirping of birds can be heard. Cool pure morning breeze fills everyone's heart with new hopes, dreams, joys & freshness. As it's a new day some will live their daily schedules, some have to lead it with adventure and enthusiasm and some will be going to make a fresh start. Except those.

Those who spent their nights on the roadside. They're like "earthen diyas" who always help the society & light up the dark but there is always darkness beneath it. Their high hopes were crushed & buried; buried under the burden of poverty, inequality & corruption. Somehow they just manage to extinguish the fire of food, to survive. Even at times, they eat the food spilled on the floor by richy spoiled brats or even kept for animals.

So this world is quite miscellaneous, you can find what you want but for that you have to struggle. Like a seashell determined enough to always be yourself, to win over the strong waves that will one day turn you into a "PEARL", precious & hard to find. So learn, fight & win, make your dreams come true.

Then help the roadsiders to dream, you are blessed with a nice human life. So yes stand up and show your humanity, just don't ignore the things like egocentrics. So, that when sun shines the next day one more person will have hope and that too because of you. That joy can't be compensated than any other bank balance. So be an inspiration and the reason for someone's smile.

मेरे शिक्षक की तस्वीर

हार्थों की चंद लकीरों पर, कुछ अपनी तमदीरों पर
कुछ बना गये कुछ सिखा गये, दुनिया की नई तस्वीरों पर !!

ज्ञान के शब्दों को चुन चुन कर, हम सबमें था दिया उतार
बने उज्ज्वल भविष्य हमारा, किया हमें ऐसे तैयार !!

तनिक-मानिक से प्रश्नों से, जब हमने चिन्कार किया
चिन्तन-मनन के भावों से, जिज्ञासा तृष्णा पर उपकार किया !!

कभी शिक्षक कभी परीक्षक, कभी मित्र सा प्यार दिया
किया कभी क्रोध तो कभी हम पर, करुणा प्रेम का व्यद्वार किया !!

अनजान पथ के रहते थे हम, दी रह हमें और देते हैं
किया भूत को भी उज्ज्वल, या कहे भविष्य साकार किया !!

कुछ छाप रही कुछ याद रही, भूली बिसरी तस्वीरों पर
ये वक्त गुजरा गुजस्ता ही गया, उड़ती रेत की लहरों पर !!

पुनक्ति ☺

Hard work v/s hard luck

A student worked very hard to fulfil his dream,
To gain something and to get an ice-cream
From the beginning he started to work very hard,
For his success he always pray to his true god

Why should we heavy work if destiny already set our goal on our hand??

Someone said to him...

But just suppose if destiny written that only hard work gives you success than...!!!What will you do...?

The ever best answer given by him

Who knows who win?

But I will definitely in.

If you work hard

Stars in the sky are not too far

But suddenly destiny gained some extra power,
which change all the good hour

All the hard work goes in vain,

Success that I unable to gain

Now what should I do? I am thinking,

Why my right eye is blinking??

I want to create my own name,

Want to get name & fame

But to ascent my name and star,

I have to do work hard

Between the devil and the deep sea don't loose your aim,

Just try and try and move heaven and earth to gain and gain

Luck is not in our hand but hard work is in our hand

Your hard work makes your luck but luck can never make your work

If you work hard you will come off with flying colours,

Like a boat sail by good sailor

By defeating all your weakness just move towards the map,

And added a beautiful feather in your special cap...

Learning

Never avoid learning, to learn is to progress

When something has learnt very well.

There is confidence and the work is done very well.

The opportunity of success keeps coming one that is ready to utilize

The occasion remaining people keep repenting always,

Keep preparing yourself.

As soon as, the occasion comes try to be benefited.

If you have true knowledge you shall be successful.

NOT

You are not your age,
Nor the size of clothes you wear.
You are not a weight,
Nor the color of your hair.
You are not your name,
Nor the dimples in your cheeks.
You're all the books you read,
And all the words you speak.
You're your morning croaky voice,
And the smiles you try to hide.
You're the sweetness in your laughter,
And every tear you've cried.
You're the songs that you sing so loudly,
When you know you are all alone,
You're the places that have been to,
And the one that you call home.
You're the things that you believe in,
And the people that you love.
You're the photos in your bedroom,
And the future you dream of.
You're made of so much beauty,
But it seems that you forgot.
When you decided that you were defined,
By all the things you are not.

WAKE UP INDIA

Wake up! All my country man,
Hear the cry of our mother land.
Our nation is in danger,
But we are behaving like strangers.
Soldiers are on border for our protection,
But we are sleeping instead of performing our action.
We are pretending to be unaware of the situation,
We need to pay some attention.
We are not ready to behave like nation,
We are divided into cast creed and religion.
When our nation is in danger,
Our blood should boil in anger.
Soldiers without caring for personal life,
Left their parent, children and wife.
And off they went like heroes,
To make the enemies feel like zeroes.
Those men had muscles like iron,
And had hearts of lion.
We should salute to caretakers of nation,
As to made them feel special.
!! THE HEROES OF THIS STORY!!

Chotti Si Paheli

Chhoti si paheli Bandhe chali,
Yeh naino ki dor ko,
Yeh zindagi hai kaisi jo khol,
Chali zindagi ke har panne ko,
Yeh chhoti si paheli,
Chal padi kaun se raste pe,
Jo aasan kar rahe zindagi ke har khel ko,
Yeh chhoti si paheli,
Kya naam doon is paheli ko,
Jo samjh na aayi kisi ko,
Yeh chhoti si paheli.

Fashion

Fashion is just a craze,
That ends after some days,
People have forgotten their religion,
And commencing to do new with som praise,
They are replicating English and Indians,
And somehow doing like Canadians,
Tight jeans and short skirts,
English songs and Indian movies,
Managed muslims as dull rubies,
We futile in this craze,
This all divest our grace,
We must speculate what we are,
And not just ride on Fashion Car.

Jaane Kyon

Jaane Kyon log economics pada krte hai?
Consumption ke badle saving kiya krte hai,
Boom ata hai depression rehta hai,
Hick ata hai indifference curve dikhata hai,
Price index dekh kar consumer ko
hypertension rehta hai!
Hum dhoondte hai par equilibrium ata hi nahi,
Economics mein kahin stability nahi milti,
Consumer ko satisfaction nahi milti,
Nation ki national income badana har citizen
ka urge hota hai,
Welfare ke liye mili money corruption ke liye
diverge hoti hai,
Jaane kyon log corruption kiya krte hai,
Kyon nahi consumer welfare ke liy e jiya krte
hai,
Jaane kyon ! Jaane kyon???

Art is expressive

If you want your children expressive and
nice,
And if you want them sincere and learn
twice,
They should be polite and smart too,
And be tolerant while standing in a queue.
Have you tried their mind at art ?
Or have made only books their life's part.
Just give them the gift of colors and brush.
And don't push them in technology's mad
rush.
