Teerthanker Mahaveer University Faculty of Education

M.Ed. (Master of Education)

Programme Specific Outcome

PSO-1	:	Understanding the concept, theories, ideas, practices and critical issues in Education.
PSO-2	:	Applying the technology in education with emerging trends in classroom as an
		effective learning tool for learners and as a support to teachers.
PSO-3	:	Analyzing the behaviour, attitude & values of trainees, so that they shapeinto
		responsible and accountable agents of change in the society in the perspective of
		local, national and global concerns and issues.
PSO-4	:	Developing self identity as a teacher through training based learning experiences and
		reflective practices that continually evaluate the effect of their choice and action.
PSO-5	:	Developing research skills, data analysis abilities and capacity to visualize, conduct and
		present research.
PSO-6	:	Developing research acumen through critical analysis, discussion, academic debate
		and seminar presentation.
PSO-7	:	Developing professional ethics, entrepreneurship, leadership & team sprit.

Course Outcomes

	1	
MEDS 101	CO-1	Understanding concepts, principles, theories & techniques of psychology.
	CO-2	Applying different theories & techniques of psychology to solve the
		problems of adjustment of their pupils.
	CO-3	Analyzing the stages of growth and development of students and
		accordingly provide them guidance and counseling.
	CO-4	Elaborating the various techniques of Intelligence and personality
MEDS 102	CO-1	Understanding concepts, principles and theories of Education.
	CO-2	Explaining epistemology and axiology of education
	CO-3	Classifying Social Equity & Social Equality; Social stratification & Social
		Mobility.
	CO-4	Analyzing different factors of social stratification in reference to Indian
		Society.
MEDS 103	CO-1	Understanding the meaning, need and importance of educational
		research.
	CO-2	Applying the different techniques of quantitative data analysis.
	CO-3	Analyzing the different methods of research and research methodology.
	CO-4	Hypothesizing and developing a research proposal.
MEDS 104	CO-1	Understanding the meaning, nature, scope and evolution of ET, IT and ICT
		in education.
	CO-2	Applying the teaching learning-system and potential of ICT in
		effectiveness in education.
	CO-3	Analyzing various digital teaching learning resources
	CO-4	Evaluation of ICT in teaching-learning process, administration and support
	•	• • • • • • • • • • • • • • • • • • • •

		system.
MEDS 121	CO-1	Understanding the need, characteristics and development of Distance
		Education.
	CO-2	Applying the information and communication technologies in distance
		education.
	CO-3	Analyzing the mechanism for maintaining standards in distance
		education.
	CO-4	Evaluating the new dimension in distance education.
MEDS 122	CO-1	Understanding the need and importance of Value Education.
	CO-2	Applying theories and approaches of value development in daily living.
	CO-3	Realizing the importance of self-transformation for social transformation.
	CO-4	Evaluating value education in personality development.
	CO-5	Developing national and international values for global development.
MEDS 123	CO-1	Understanding need and importance of comparative education.
	CO-2	Explaining the factors affecting the system of education.
	CO-3	Comparing the structure of education system of different countries.
	CO-4	Evaluating the recent trends and innovations in education
MEDS 124	CO-1	Understanding the concepts and nature of Inclusive Education.
	CO-2	Differentiating among special education, integrated education and
		inclusive education.
	CO-3	Analyzing the characteristics of children with diverse need and utilization
		of resources.
	CO-4	Evaluating the Government Efforts to promote inclusive education.
	CO-5	Developing the skills and competencies in teacher educator for inclusive
		education
MEDS 125	CO-1	Understanding the concept and purpose of educational planning and
	60.3	administration.
	CO-2	Analyzing the policies of education finance and its implications of efficiency of the system.
	CO-3	Discussing the linkages of Various State, District and Local level
	CO-3	functionaries
	CO-4	Developing the institutional plans for effective vocational education.
MEDS 151	CO-1	Understanding a good academic writing style
25 252	CO-2	Developing the ability to listen, converse, speak, present, explain and
		exposit ideas in groups and before an audience
	CO-3	Developing effective presentation styles using available ict resources
MEDS 152	CO-1	Understanding the concept of various psychological test.
	CO-2	Applying various psychological test to understand the problems of
		subject.
	CO-3	Analyzing the obtained data and preparing the results.
	CO-4	Evaluating the report to solve the problems of subject.
MEDS 201	CO-1	Understanding the nature, functions, principles and Ideology of
		Philosophy in Education.
	CO-2	Explaining Indian & western schools of Philosophy.
	CO-3	Applying the principles and thoughts of philosophers in present
		education.
	CO-4	Analyzing the contribution made by prominent Indian & western

		philosophers in education.
MEDS 202	CO-1	Remembering aims and basic concepts of Ancient education.
	CO-2	Explaining the various education systems, commission, constitutional
		provisions and issues concerns in education.
	CO-3	Visualizing the education in Independent India and its future.
	CO-4	Analyzing all educational commissions in present scenario.
MEDS 203	CO-1	Understanding nature, principles and components of curriculum.
	CO-2	Explaining the different models of curriculum development.
	CO-3	Analyzing the different learning experiences
	CO-4	Designing the integrated and interdisciplinary learning experiences.
MEDS 204	CO-1	Understanding the concept and processes of educational administration
		and leadership.
	CO-2	Discussing the different strategies of educational planning.
	CO-3	Analyzing the educational policies and its implications for efficiency of the
		system.
	CO-4	Developing familiarities with various sources of financing in India.
14500.004	CO-5	Developing the qualities of leadership skill among students.
MEDS 221	CO-1	Understanding the relationship between Humans Beings and their
	CO-2	Environment.
	CO-2	Acquiring a critical understanding of the different curriculum transaction
	CO-3	and evaluation strategies for environmental education. Developing sensitivity towards Environmental Disaster Management.
	CO-4	Developing skills and competencies as teachers for Management of
	00-4	Environmental Awareness Programmes
MEDS 222	CO-1	Understanding concept, need and importance of Peace Education and its
		relevance to the present global scenario.
	CO-2	Identifying the activities & programmes for promoting peace and
		harmony.
	CO-3	Developing skills among teacher trainees in human values, harmonious
		living with co- existence.
	CO-4	Creating awareness among student teachers for development of activities
		for peace education.
MEDS 223	CO-1	Understanding the concepts, principles and importance of educational
		and vocational guidance at various level.
	CO-2	Explaining the various testing devices, principles of guidance and
	60.0	counseling.
	CO-3	Applying the principles of mental health & hygiene for effective
	60.4	adjustment in life
MEDS 224	CO-4 CO-1	Evaluating the various psychological tools in guidance and counseling.
IVIEDS 224	CO-1	Understanding the meaning, need and significance of inclusive education.
	CO-2	Explaining learning across various level. Identifying diverse needs students having disabilities, disadvantages and
	20-3	marginalization.
	CO-4	Describing various disability conditions and their educational implications.
	30 4	Developing capacities to apply techniques of guidance and counseling to
		support these students.
TMUPS-202	CO-1	Utilizing effective verbal and non-verbal communication techniques in
	1	5 - Communication Communication Communication

CO-2 Understanding and analyzing self and devising a strategy for self growth and development. CO-3 Adapting a positive mindset conducive for growth through optimism and constructive thinking. CO-4 Utilizing time in the most effective manner and avoiding procrastination. CO-5 Making appropriate and responsible decisions through various techniques like SWOT, Simulation and Decision Tree. CO-6 Formulating strategies of avoiding time wasters and preparing to-do list to manage priorities and achieve SMART goals. MEDS 251 CO-1 Developing an holistic and integrated perspective about oneself —the self as a person and as a professional. CO-2 Developing sensibilities, dispositions, and skills that will later help them in facilitating the personal growth CO-3 Developing social relational sensitivity and fair, tolerant and just perspectives about various issues. CO-4 Developing the habit to inculcate in self reflection leading to self development MEDS 252 CO-1 Preparing the Synopsis/ Research proposal. CO-2 Presenting the Synopsis/ Research proposal through Power-point presentation. MEDS 301 CO-1 Understanding the sample and sampling techniques CO-2 Applying different techniques for data collection through standardized tools. CO-3 Applying the appropriate statistics to interpretate the data. CO-4 Developing skills to write the good research report. MEDS 302 CO-1 Defining education and social structure. CO-2 Understanding the education in reference of sociological perspectives. CO-3 Understanding the education in reference of sociological perspectives. CO-4 Analyzing education as a mean of social change. MEDS 303 CO-1 Understanding the integration of education at national and international level. CO-4 Analyzing different approaches of education at national and international level. CO-4 Analyzing different approaches of educational technology. CO-5 Analyzing the emerging trends in educational technology for improvement of learning. MEDS 311 CO-1 Understanding the concepts need and significance of Elem			formal and informal settings
and development. CO-3 Adapting a positive mindset conducive for growth through optimism and constructive thinking. CO-4 Utilizing time in the most effective manner and avoiding procrastination.
