

### Our Guiding Values

Right Philosophy

Right Environment

Right Conduct

Right Knowledge

### Green Policy

The University recognizes it's role, which it needs to play in developing the environmental stewardship of its staff, students and visitors and to integrate the principles of sustainability into activities and services.

#### We are committed to:

- Comply with applicable Environmental legislations, statutory and regulatory requirements and other requirements, If any.
- Study and analyze aspect, impact and risk potential of our activities.
- Reducing the environmental impact of the University's digital environment through different activities.
- Water conservation, managing and reducing water consumption.
- Encouraging the inclusion of courses in curriculum and organizing of curricular and extra-curricular activities to promote environmental awareness.
- Enable individuals to acquire, knowledge, skills and values, thus creating responsibility amongst the University Community to contribute for sustainable development.
- Encourage all members of the University to Rethink/Reduce/Reuse/Recycle.
- Seek additional ways of achieving our goal of being environmentally safe and responsible organization.
- Demonstrate continuous improvement in our activities which impact on the environment.

We are committed to manage all of our resources in harmony with nature. Our social, scientific, ethical and educational leadership responsibility in actively promoting restoration and preservation of a healthy environment for the future, and in contributing to building an equitable world.
