## Program Structure-B.A.-B.Ed.(Integrated)

### A. Introduction:

The four-year B.A.- B.Ed. programme is designed to provide opportunities for students to extend as well as deepen their knowledge and understanding of teaching profession, and also develop research capacities leading to specialization at the secondary education. Dorasami subject committee report on development of Model Curriculum Framework for Four-Year Integrated Teacher Education Programme was also taken into consideration. The framework is based on the NCTE regulations, 2014 for B.A.- B.Ed. programme.

The four year integrated programme aims at integrating general studies comprising Arts and Humanities(B.A.-B.Ed.) and professional studies comprising foundations or education, pedagogy of school subjects, and practicum related to the tasks and functions of school teachers. This programme maintains a balance between theory and practice, and coherence and integration among its various components, representing a wide knowledge base for a secondary school teacher. The programme aims at preparing teachers for Upper Primary and Secondary stages of education.

The B.A.- B.Ed.programmewillbe of four academic years consisting of eight semesters including school based experiences and internship in teaching. Student teachers will, however, be permitted to complete the programme within a maximum period of six years from the date of admission to the programme. This course will also be a foundation for those who would like to specialised as a senior secondary teacher as desire to go for post-graduation.

The institute emphasizes on the following courses *balanced with core and programme specific elective courses*: The curriculum of B.A.-B.Ed.(Int.) program emphasizes an intensive, flexible management dictation with 72 credits of core courses, 72 credits of programme specific courses, 33 credits are allotted to ability enhancement courses (AECC), 20 credits of school internship projects, 08 credits are allotted for pedagogy elective, engagement with field are allotted 04 credit and enhancing professional capacities are allotted 04 credits.Total 213credits are allotted for the B.A.B.Ed. (Int.) degree.

Course handouts for students will be provided in every course. A course handout is a thorough teaching plan of a faculty taking up a course. It is a blueprint which will guide the students about the pedagogical tools being used at different stages of the syllabus coverage and more specifically the topic-wise complete plan of discourse, that is, how the faculty members treat each and every topic from the syllabus and what they want the student to do, as an extra effort, for creating an effective learning. It may be a case study, a role-play, a classroom exercise, an assignment- home or field, or anything else which is relevant and which can enhance their learning about that particular concept or topic. Due to limited availability of time, most relevant topics will have this kind of method in course handout.

Contact hours include work related to Lecture, Tutorial and Practical (LTP), where our institution will have flexibility to decide course wise requirements.

### **B. Choice Based Credit System (CBCS)**

Choice Based Credit System (CBCS) is a versatile and flexible option for each student to achieve his target number of credits as specified by the UGC and adopted by our University.

The following is the course module designed for the B.A.-B.Ed (Int.) program:

**Core Course (CC):** Core courses of B.A.-B.Ed (Int.) program will provide a holistic approach to basic arts education, giving students an overview of the field, a basis to build and specialize upon. These core courses are the strong foundation to establish basic arts knowledge and provide broad multi-disciplined knowledge can be studied further in depth during the elective phase.

The core courses will provide more practical-based knowledge, case-based lessons and collaborative learning models. It will train the students to analyze, decide, and lead rather than merely know while creating a common student experience that can foster deep understanding, develop decision-making ability and contribute to the basic education and community at large.

A wide range of core courses provides groundwork in the basic school education, Upper primary education and secondary education.

The integrated foundation is important for students because it will not only allow them to build upon existing skills, but they can also explore career options in a range of industries, and expand their understanding of various educational field.
