Research & Extension

As an educational institution, the University encourages students and scholars to expand human knowledge through analysis, innovation, and insight.

To lend a helping hand to the scholar burning the midnight oil, the University subscribes to the EBSCO database, Clinical Key (Elsevier) and DELNET Database providing access to thousands of journals in different disciplines for full text research articles and sector specific reports.

The University collaborates with national and international institutions for teaching, research and exchange of faculty and students to contribute to cutting-edge research and evolve new standards. Another project, “UKIERI”, had been undertaken to improve teaching pedagogy and IT enabled teaching in the College of Nursing in collaboration with Napier University, U. K. A number of projects sponsored and funded by external agencies are in progress. Projects sponsored by the Ministry of Labor and Employment, Government of India, a project with the Consultancy Development Center, and a project under the aegis of UNICEF, are underway.

The University publishes the following journals on periodic basis:

- ▶ View Point (Management)
- ▶ Pharmaco Arena (Pharmacy)
- ▶ S & T Review (Science & Technology)
- ▶ TMU Journal of Dentistry (Dental)
- ▶ Acta Medica (Medical)
- ▶ Int. Journal of Research Trends in CS & IT (Computer Sciences)

Infrastructure & facilities

Teerthanker Mahaveer University is a new generation, multidisciplinary University that boasts of its world-class infrastructure. The campus has the uniqueness of many state-of-the-art buildings, sprawling lawns, well maintained playgrounds along with supporting facilities. It has been planned, designed and constructed to address broader issues that relate to resource and energy conservation.

LIBRARY

The University maintains well stocked separate libraries for each of its colleges. The University libraries have more than 2,00,000 books on varied subjects, with more books added almost every day. For a closer view of advances in technology, new discoveries in the fields of medical and engineering, the University libraries subscribe to the print versions of national and international journals besides maintaining access and archive of a host of e-journals.

The libraries are technology enabled and automated, which improve services for students, research scholars, as well as seasoned professors. The University have subscribed to the EBSCO database, Clinical Key (Elsevier) and DELNET Database providing access to full text research articles and sector specific reports in different disciplines.

IT RESOURCES

The University is adequately equipped with computer systems. Each college has dedicated computer lab(s) equipped with general as well as domain specific software for quality teaching and research.

MICROSOFT ERP installed to automate various administrative processes of the university. The University is proud to be a part of the National Knowledge Network (NKN), an initiative of the Department of Science and Technology and Ministry of Human Resource Development, Government of India, which connects universities of the country through high speed Internet to share knowledge, learning experiences and academic resources.

Additionally, use of latest technology helps eliminate distances and dissolve boundaries, with eminent experts available to interact with students and faculty, allowing for a free flow of knowledge.

THE LANGUAGE LABS

Four (4) State-of-the-art language labs with 240 computer terminals equipped with hi-tech software, to help develop basic, intermediate and business level language skills. In addition, these labs have personality development cabins and group discussion rooms for students to interact with their peer groups, for discussions and debate, allowing them to grow holistically.

HOSTEL

We call our hostels home for students. The hostels at TMU are a home away from home. The onus of developing the student academically, strengthening their culture, taking care of their physical fitness, all lie on this vital micro structure of the University. Life in TMU hostel is a stepping stone to further independence, an essential right for many, enabling them to reach out to their destiny. The University houses five hostels in its campus- 2 for boys and 3 for girls with a capacity to accommodate 4600 students.

The hostel rooms are spacious, clean, and well maintained with attached bathrooms. The rooms are available on single occupancy basis as well as on sharing basis. To help the young minds focus on their studies, each room is furnished with beds, wardrobes, study tables, chairs and air-cooler. Solar heaters have been installed in all the hostels to supply hot water conserving electricity. Water purifiers and water coolers are installed to provide potable water. Round the clock power back-up helps students to study without interruption. Air-conditioned rooms are also available to meet specific requirement of the students. Each hostel has a visitor's room, a spacious well lit common room with a large screen television and comfortable seating arrangement, recreational facilities, equipments for indoor games, newspapers and magazines, Wi-Fi connectivity and a gymnasium. Laundry facility is available in-house with commercial washing machine and tumbler drier. Spacious dining rooms and modern kitchens ensure that students are served with nutritious food in a good ambiance.

A dedicated team of wardens and caretakers helps and resolve the problems of the boarders. Students are advised to comply with rules and regulations of the University hostels.

Highlights

- ▶ Hygienic Mess serving quality food (all messes are laced with automated equipments and automatic chapati making machines)
- ▶ Spacious dining halls

All the bonafide students will also have the coverage of Rs 1 lac in case of accidental death while they are studying at the university.

Student Club

The University has seen the Student Clubs playing a pivotal role in the development of its students. Since these clubs are managed by the students, the level of commitment and sense of responsibility is quite high amongst its stakeholders thus ensuring their all round development. The prominent clubs of the University are:

Entrepreneurship Club

- The club promotes a culture of ideas, innovation and entrepreneurial intentions among the students. Run by the students of management and engineering, the club invites renowned entrepreneurs to the University and organizes their talk and interaction with the students.

Wall Magazine Club

- These clubs are quite popular across all the Colleges of the University as the students manage the write-ups, articles, issues on like ecology and environment, human rights etc. to sensitize their fellow students every month. A huge wall or notice board is dedicated for this purpose in all the Colleges.

Green Club

- As a student at Teerthanker Mahaveer University, one automatically becomes a responsible member of the Green Club which promotes to be abstemious in the usage of light and water across the campus.

Water Footprint Club

- This club promotes saving of water by calculating the usage and wastage of water. It conducts workshops in collaboration with 'Ramganga for Life, Life for Ramganga' Campaign (WWF-India). The objective of this club is to empower individuals, communities, schools and colleges to calculate their Water Footprint and take measures to reduce it at individual as well as collective levels.

Sports Club

- The sports club bears the onus of selecting best of the sports persons for various sports under the guidance of their College Sports Coordinator.

Cultural Club

- The cultural club involves students from all the Colleges of the University and solicits their participation in various cultural events like Rock-On, National Days etc.

Marketing Club

- This club organizes various activities like case study competition, annual marketing fair etc. in which the students participate and implement what they have learnt in classroom sessions.

Human Resource Club

- Management students organize activities like role play competition, case study competition and talk on various HR issues.

Workshops & Conferences

TMU actively organizes conferences and workshops across various disciplines. Every college in TMU has recorded a number of conferences, workshops and seminars to its credit. The faculties at TMU aim to organize the conferences to bring together various research findings and experiences to the audience focusing on multidisciplinary approaches in their respective area of expertise. The University witnesses audience from renowned administrators, academicians, social workers and other eminent people from various sectors.

The students of TMU play an active role in organizing such events. The University also aims to bring together researchers and experts of various disciplines who are directly or indirectly contributing to the improvement of the society through their outstanding work in different sectors under the umbrella of 'Multi-disciplinary Approach' to strategize and address the emerging issues across the sectors globally. The conferences contribute to the development and knowledge enhancement of students as well as of the faculty.

Dental College & Research Centre

Teerthanker Mahaveer Dental College and Research Centre, established in year 2005, is one of the prestigious and accredited dental institute. The college is actively involved in quality teaching and research practices in oral health care that makes it a centre of excellence for providing world class education. The college is well equipped with state-of-the-art dental clinical setup and a modern & majestic infrastructure. The college has a well established simulated pre-clinical and research labs. The air-conditioned central library opens for 12 hours a day. A separate hostel for girls and boys situated in the serene environment with round the clock Wi-Fi connectivity and uninterrupted power supply makes it conducive for concentrated studies. The indoor and the outdoor stadium gives a boost for athletic development. The BDS course has an intake of 100 whereas; the MDS course has an intake of 45 seats. The programmes are at par with the International standards and fulfill all the regulations laid down by Dental Council of India.

A large number of patients visiting OPD of the dental college is its major strength. The college has super-specialty clinical setting which attracts both rural as well as the urban population. The satellite centres located in various other areas of the district and two well equipped mobile dental vans caters to the needs of the underprivileged. Along with its well furnished labs with modern equipments and facilities, the college is well complimented by renowned intellectual faculty members. Special emphasis is laid on the training of the students to make them technically sound dentists having good communicative skills and professional understanding in order to treat various oro-dental diseases. The auditorium of the college with a seating capacity of 550 individuals serves to conduct various scientific programmes in which distinguished personalities from the dental fraternity are invited to share their positive life experiences with the students and the faculty.

The college encourages all its young researchers for publication of their papers, participation in national as well as international seminars, symposiums, conferences and workshops, which enriches them with latest knowledge and techniques in the field of Dental science. Moreover, extracurricular activities, sports and cultural festivals for students are conducted throughout the year, which, in turn, help to nourish their talent and personality.

GOALS & OBJECTIVES

- ▶ To provide quality education to students and provide outstanding patient care.
- ▶ To not only give students clinical knowledge but also instill in them ethical values which we consider very vital in this noble profession.
- ▶ To constantly modernize and review our clinical facilities to keep them at par with the highest standards of the profession.

MAJOR STRENGTHS

- ▶ Good infrastructure and excellent mentoring providing more personal support and greater access to opportunities in each student's chosen fields of interest.
- ▶ Sophisticated preclinical labs that enable naïve undergraduate students to achieve complete training to handle patients in clinics
- ▶ Large number of patients daily that ensure excellent clinical training of our students.
- ▶ We strongly promote academic achievement among our students.

- ▶ Our approach involves working with parents to meet the individual needs of every student, and supporting them to fulfill their academic and co-curricular goals and dreams.

College of Nursing

The College of Nursing, established in year 2009, offers diploma, graduate & post graduates programmes in nursing to meet the diverse needs of the health care sector. Qualified and experienced full-time nursing faculty provides the right mix of inputs comprising of theoretical, practical and clinical experience. The college has a network of health care centres and clinical affiliations with community-based organizations and government agencies. All programmes are recognized by both Indian Nursing Council and UP Nurses & Midwives Council.

Nursing training programmes have been formulated, in consultation with experts, adhering to standards and guidelines. Hands-on-training is given to the students at the 1000-bed multi super-specialty hospital at the University Medical College, as well as in allied urban and rural health centres. Nursing students attend OPD sessions in the hospital. Students visit different places under community connect and provide primary health services. Students actively participate in health awareness programmes.

The College of Nursing has a magnificent building with spacious class rooms, labs & library. The library is well equipped with latest books in nursing, regular supply of foreign & Indian journals, access to Internet & E-journals along with magazines & news papers. There is free wi-fi facility for all the students in the college campus.

Recently college has been equipped with Simulation skill lab with various simulators to provide Hands-on–Practice on critical nursing skills. The simulation lab provides an opportunity for the students to have most advanced learning technology. The College of Nursing is also inceptor of an authorized International Training Centre (ITC) in collaboration with GHPL (Medanta the Medicity) for the American Heart Association with initiatives aimed at training health care fraternity on Basic Life Support (BLS) & Advanced Cardiovascular Life Support (ACLS). Students regularly interact with faculty members, doctors, and students from medical, dental and management colleges to hone their technical and managerial skills and are groomed as competent nurses.

GOALS & OBJECTIVES

College of Pharmacy

Emerging challenges in patient care and healthcare systems require skilled and dynamic personnel with versatile approaches for therapeutic management of drugs, to counsel patients on proper and optimal use of medicines and monitoring / modifying outcomes of drug based therapies.

Teerthanker Mahaveer College of Pharmacy was established along with other colleges offering programmes in medical, dental, nursing and paramedical sciences, forms an essential part of the endeavor to train competent medical personnel at the university.

Duly qualified and technically skilled pharmacy professionals are playing pivotal role in ensuring quality patient care and efficient healthcare systems in India. The start-up awakening and entrepreneurship promotion schemes, as well, provide myriad of opportunities to young pharmacy professionals.

The college grooms professionals at diploma, graduate, postgraduate and doctoral levels, equipping them with innovative approaches to resolve problems in drug industries and clinical areas.

College of Paramedical Sciences

Paramedics form an essential part of pre-hospital emergency services, providing primary medical and trauma care. Paramedics need to work in rotational shifts and must have the presence of mind to take right decisions during an emergency. Major areas of work in the field of paramedical sciences are spinal injury management, fracture management, obstetrics, management of burns and assessment, and evaluation of general incident scene. A person working in the field of Para - Medicine must be well acquainted with medical equipment maintenance procedures, radio operating procedures as well as emergency vehicle operation.

The College of Paramedical Sciences conducts specialized training in four disciplines by qualified professionals.

- Forensic Science discipline provides exposure and practical training for investigation of accident and crime scenes.
- Study of Radiography and Imaging Technology prepares professionals and technicians proficient in use and interpretation of radiological imaging technologies using XRay, Color Doppler, Ultrasound, EEG, CT- Scan and MRI.
- Medical Laboratory Technology focuses on diagnosis, treatment and prevention of diseases through clinical laboratory technologies.
- Optometry discipline trains ophthalmic technicians who can assess ocular motility disorders and errors of refraction.

A paramedic may find opportunities to work in government hospitals, private hospitals, clinics and trauma centers. Paramedical professionals can work as medical lab technicians, radiography technicians, radiologists, physiotherapists, speech therapists and audiologists, dialysis therapists, emergency technicians, emergency care practitioners, perfusion technicians, cardiac technicians, and respiratory therapists.

GOALS & OBJECTIVES:

To become the most famous paramedical College in Northern India, and provide a Job oriented environment to nearby society.

MAJOR STRENGTHS

Our main strengths are strong and well qualified faculty, well established labs, a big multispecialty hospital for more exposure to students, so we can produce good stuff of students with skilled in their field.

Department of Physiotherapy

Physiotherapy is a branch of rehabilitative medicine aimed at helping patients maintain, recover or improve their physical abilities. Physiotherapists are concerned with the remediation of impairment and disabilities, and promotion of mobility and movement potential through provisional diagnosis and physical intervention. Keeping in view the increasing demand of physiotherapy services during and post treatment phase in the medical sector, the Department of Physiotherapy was established in the year 2010 to train professionals who can render these services.

The Department of Physiotherapy is functioning with competent and experienced core faculty to impart specialized knowledge. The curriculum has been designed in accordance with the guidelines given by the experts in the field.

The Department has Physiotherapy OPD operational in the 1000 bed multi super-specialty hospital of the Teerthanker Mahaveer Medical College, located in the university campus. Students are exposed to clinical experience in the OPD and Hospital IPD in collaboration with healthcare centers. Students have access to departmental facilities and laboratories to improve their practical skills. A well stocked central library is the source for theoretical knowledge. Requirements of practical component of the curriculum are fulfilled through the work undertaken in the laboratories. The BPT/MPT programmes are approved by Govt. of U.P. and U.P. State Medical Faculty.

College of Law & Legal Studies

"Justice is the greatest concern of man on earth." – Daniel Webster

Teerthanker Mahaveer College of Law and Legal Studies, established in 2010, attracts bright young men and women who aspire to meaningfully contribute to the legal profession. The nation needs competent practitioners of law, ensuring the public access to justice.

The College of Law and Legal Studies offers multifaceted legal education programmes that include: B.A. LL.B. (Hons.), B.B.A. LL.B. (Hons.), B.Com LL.B. (Hons.), and Ph.D.

For in-depth research, college facilities include a Learning Resource Centre, a well-stocked library, and e-library facilities for journals and articles in digital form. The faculty encourages students to have spirited discussions and debates in classrooms, common rooms, and moot court. Students become conversant with the complexities of law at the Legal Aid Clinic, and a Social Consultancy Centre.

The college, in a short span of time, has become a recognized name in legal education and its alumni are serving the nation as Judicial Magistrates, Legal Advisors, Law Officers and as Advocates not only in Subordinate Courts but also in High Courts of various states as well as in Supreme Court. The College adopts a career-based approach that delivers client-focused lawyers eager to make a mark in litigation, judicial services, teaching, research, and social advocacy.

Since the law, more than any other profession, is about building and nurturing trust, students are inspired to practice high ethical and moral ideals to meet professional responsibilities. The college emphasizes on learning through application and practice and provides opportunities to study law through practical exposure. Students are encouraged to learn skills essential for the legal profession - legal communications, effective negotiations, litigation strategies, mediation, conciliation procedures and processes.

The comprehensive internship programme at the College covers the whole range of legal services - civil & criminal practices, social advocacy, corporate law, traditional dispute resolution mechanisms, and modern alternative dispute resolution systems. The college is dedicated to contributing to the profession of law in an evolving local and global environment.

College of Computing Sciences & IT

Gateway to an Intellectual Destination...

The Teerthanker Mahaveer College of Computing Sciences and Information Technology came into existence in the year 2014 (formerly known as Department of Computer Applications, established in the year 2001). The college was established by the university with the aim of providing relevant, essential and upgraded education to the young aspirants in the field of computer science and engineering. The college is geared up to meet the continuously increasing demand of skilled manpower, in the domain of Computer Science and Engineering, because of the rapid technological advancements around the globe and major initiatives like 'Digital India' taken by the Government of India.

The College of Computing Sciences and Information Technology (CCSIT) is the center for all Computer Science related programmes run by the university as per the standard UGC and AICTE norms. The college prepares young engineers to acquire essential knowledge and technical skills that allow them to conceptualize, design, develop and implement Computer Applications fulfilling the Software demand of the world. The college offers wide range of academic programmes at undergraduate, postgraduate and doctoral levels to cater to the needs of the corporate world.

The curriculum is periodically reviewed by the Board of Studies to ensure that we provide upgraded knowledge and necessary technical skills to the students. There exists a flexible credit system that enables the students to make their own choices and enhance their skills accordingly. Competent and experienced faculty, with their effective pedagogy, help students learn in a best possible environment. The participation of students in workshops, seminars, conferences and various co-curricular activities is an essential component of their learning. Industry experts, eminent academicians, scientists and researchers are regularly invited for interaction and knowledge sharing sessions for the students.

VISION

To accomplish academic excellence in the field of computer science and engineering, providing quality education and research for the development of society and nation.

MISSION

To cultivate, share, and apply knowledge in computer science and interdisciplinary areas as well to inculcate professional, moral, social and ethical values in students to cope with challenges of the modern world.

MAJOR STRENGTHS

- ▶ Willingness to recognize weaknesses and make improvements,
- ▶ Recruitment, retention, lack of diversity and develop plans for making Improvements
- ▶ Well qualified and experienced faculty of various specialization domains.
- ▶ World class infrastructure to provide all necessities to the students and the faculty that includes spacious lecture halls, Lecture Theater, computer labs and seminar hall equipped with all ultra-modern facility to impart quality education.
- ▶ Trying to develop academic culture (24*7) for faculty, staff, and students.
- ▶ Wants to produce knowledgeable graduates from rural areas with high earning power.
- ▶ Wants to create committed, dedicated, positive morale, and ethics oriented Human Resource.
- ▶ Fully dedicated to follow our Vision and Mission. Strong Curriculum

- ▶ Student Quality
- ▶ Team work of faculty & staff
- ▶ Quality of faculty
- ▶ Industrial Collaborations
- ▶ Good Publications
- ▶ Maintaining pace with changing Technology
- ▶ Quality graduate program
- ▶ Supportive working environment amongst Colleagues
- ▶ Good computing environment (labs and server)
- ▶ Adequate lab facilities

B.TECH CSE/IBM FIRST YEAR STUDENTS	22	IBM RESEARCH LABORATORY, NEW DELHI	INDUSTRIAL VISIT	An industrial visit to the IBM research laboratory at New Delhi was organized on 28th August, 2019, for B.Tech CSE-IBM 1st year students to familiarize them with various communication technologies and emerging research trends in the field of computer technologies. It is pertinent to mention that IBM research laboratory is world's largest application development laboratory. Ms. Shefali Dutta (IBM Head) gave a presentation about their company and subsequently about technologies by briefly explaining new inventions such as block chain, machine learning, data science, bluetooth and different generations of technologies steps involved in computer science (frequencies used, types of modulation methods, types of propagation and various terminologies used in the language of communication methods). She also explained the research and inventions procedures with the help of examples so that the students would grasp each point properly.	28.08.2019

ANY OTHER INFORMATION

- ▶ The participation of students is encouraged and ensured in various academic events that include conferences, seminars, and workshops each academic year for their overall holistic development. Along with this various short term courses and summer training are available to students for specialization.
- ▶ Well equipped library with rich collection of international and national Journals, Magazines, Newspapers and various educational CDs/VCDs.
- ▶ The use of e-Content resources for teaching and learning. The concept of network based Class Share has been implemented for student's easy access to e-content provided by faculty members.
- ▶ Participation of students in Group Discussions by the members for Communication Wing of college to make them ready to face recruitment process of companies.
- ▶ Faculty Development Program, Guest Lectures and Invited Talks for faculty members with reference to new challenges, issues and practices are organized.
- ▶ Teaching is done through case study method, simulation and dramatics.
- ▶ Various academic activities for faculty members and students are organized in collaboration with IBM, GOOGLE and i-Nurture.
- ▶ Bi-Annual International Journal of Computer Science & Information Technology (IJRTCSIT).
- ▶ College magazine Computing Vision published quarterly.
- ▶ Principal Excellency awards in each semester for all programmes.
- ▶ Student's participation in Smart India Hackathon.
- ▶ ERP based integrated university management system: The main objective of this ERP is to provide an easy automation of University academic and administrative processes and functions, reducing paper work and improving information dissemination.
- ▶ Mentor-mentee program: This practice helps in enhancing all round performance of student related to their attendance, examination, discipline, participation in cultural events, seminars, group discussions, celebration of special day, speeches etc.

Faculty of Engineering

Thriving Towards Brilliance through Resilience...

Faculty of Engineering is AICTE approved institute of academic excellence in Engineering, Technology and Sciences. It's student centric approach focuses on hands-on training along with imparting sound theoretical knowledge to cater to the current needs of industries. The learning process is supported by unique skill enhancement programmes;- value added courses and extensive practical lab work in line with the market trends. Our strong linkages with industries help the students to get professionally trained by getting exposed to latest industrial trends later to become competent engineers suitable for the industries.

The faculty of engineering has nine academic departments with around hundred full time faculty members. It offers programmes at Bachelor, Post-Graduate and Doctoral level, covering major branches of engineering and sciences. Experts from various domains are invited for interaction with the students in form of Workshops, Seminars, Keynote and Guest Lectures. The Faculty arranges industrial training & visits for the students, for getting firsthand exposure on industrial practices and trends.

The Wi-Fi campus is an impetus for students to enroll for MOOC programmes, helping them to diversify their knowledge frontiers. The students develop the needed personality through regular sessions of soft skills, communications, personality development, sports and other cultural activities. Knowledge Lab, an IIT Kharagpur incubated startup, and extramarks.com are providing tailored E-learning solutions as per our curricula which enables student to learn things in a modern way. Remedial classes and preparation for competitive exams are arranged based on the students' need and aspirations. All students are assigned a Mentor, to keep a personal touch to ensure proper personal & professional guidance throughout the course.

Students are trained on developing entrepreneurial skills & thinking. They are also encouraged to develop skills in workshops, laboratories and various skill based learning with industrial certification. They are exposed to latest market software like Autodesk / AutoCAD 2D & 3D, Creo, Autodesk quantity Take off, REVIT, STADPRO for Mechanical & civil engineering and PLC & DCS programming, Solar energy, Robotics Telecommunication specific training for electrical and electronics streams along with many other latest tools to develop proficiency as an engineer.

The faculty has been rated high in the engineering college surveys

- ▶ Ranked amongst the top 100 engineering colleges all over India by “DATAQUEST” – July, 2018
- ▶ Ranked 9th in the top engineering colleges of U.P. by Competition Success Review – GHRDC Engineering College Survey (July – 2018)
- ▶ Recognized as top ranked Engineering institute in ranking survey – 2018 by ELETS – Digital Learning (May – 2018)

GOALS:

To impart knowledge and develop critical skills necessary to succeed both in professional and personal life by promoting learning supported by world-class faculty, infrastructure, technology, curricula and collaborative teaching and research with premier institution in India and Abroad.

OBJECTIVE

- ▶ To impart high quality technical knowledge.
- ▶ To achieve excellence at par with the national standards.
- ▶ To provide a conducive learning environment to the students.
- ▶ To promote research activity in various fields of engineering.
- ▶ To provide consulting services.

MAJOR STRENGTHS

- ▶ Students registered in reputed industries for summer trainings.
- ▶ Well designed curriculum with Filed/live project & skill-based subjects like PLC programming, Solar Photovoltaic System.
- ▶ Experimental learning course, Aptitude & soft skill based courses included in curriculum.
- ▶ Excellent teaching environment.
- ▶ Decent infrastructure with well equipment lab.
- ▶ Improvement of the students by orienting towards research environment.
- ▶ Consultation work with industry.
- ▶ College conducted various activities for students like guest lectures, industrial visits.
- ▶ Students & faculty ratio as per norm.

College of Fine Arts

First step into a World of Possibilities...

The College of Fine Arts, established in 2011, offers a Bachelor & Masters of Fine Arts programmes that build on historical perspectives of art and design, with an emphasis to understand and address contemporary needs, and plan and prepare for the future. The objective of the programmes is to provide an appreciation and training in diverse arts through modern concepts and methods of art education. Fine Arts encompass all aspects of nature and human creativity in search of substance, form, and expression. The programmes educate and prepare students to become artists and to follow practices aligned to the making of art.

The College of Fine Arts has a vibrant culture that fosters cutting-edge practice and research. Students are greeted with an environment that reflects the openness and diversity of contemporary art and culture. Faculty members are committed to integrating new technologies with traditional media and historical fine arts practices.

Taking advantage of trend-setting academic programmes and research opportunities, students thrive in an atmosphere of exploration, discovery and develop as practicing artists. Graduates from the college, work as Designers, Painters, Sculptors, Photographers, Creative Directors, Illustrators, Portrait artists and Textile Designers with leading fashion brands.

GOALS & OBJECTIVES

- ❑ To be recognized as one the best learning hub in India in terms of Fine Arts
- ❑ To provide best practical knowledge
- ❑ To provide more and more qualitative Students that is Full of Energy and Creative ideas
- ❑ To build better citizen
- ❑ Creative teaching methods
- ❑ To provide creative working environment

MAJOR STRENGTHS

- ❑ Faculties members with good experience in field of specialization
- ❑ Up to date facilities for learning
- ❑ Advanced innovative teaching methodologies

Faculty of Education

The Faculty of Education was established in year 2003 as a department in TMIMT. It provides singular service to the cause of education and contributes to nation building through teacher training programmes. The academic programmes, leading to the B.Ed. & M.Ed Degrees, are learner centric, where students discuss ideas and concepts for education, and then apply these abstract ideas in practice for better understanding. The Masters Degree programme, running since 2006, provides a rigorous exposure to students, allowing for an understanding of education as a discipline, and prepares and equips students for educational research. Two Integrated programmes B.Sc B.Ed. and B.A. B.Ed were introduced from the session 2016 -17 and B.El.Ed programme was also introduced from the session 2017-18. Students learn through group discussions, seminars, dissertation and library work. There is no substitute for live classroom interaction for these young teachers, in making, in rural and urban schools. M.Ed. students are associated with experienced teachers to provide guidance to B.Ed. students during practice of teaching as well as classroom lectures. A programme to improve English communication is an essential part of the curriculum to enhance the teaching efficiency of the students. An interdisciplinary approach, participate in curricular and co-curricular activities, professionally designed value added courses help young students & teachers develop critical problem solving abilities and a scientific attitude. Qualified, competent and experienced faculty members, who excel as academic advisors, facilitators and mentors, support the institute. The teaching staff is encouraged to present research papers on education and social issues in reputed journals and participate in seminars and conferences. Lectures on ethics, personality development and moral code by eminent educationists are organized throughout the year.

GOALS & OBJECTIVES

Major goal of the college is the extension of learning philosophy and the creation of a body of knowledge that may serve the society at large as a source and repository of inspiration in all spheres of teacher education.

MAJOR STRENGTHS

- ❑ The courses are designed in such a manner so as to help the students to broaden their horizon along with problem solving abilities, managerial skills with scientific frame of mind it is being enriched through interdisciplinary approach.
- ❑ A deep insight is given into the methodology of teaching. The pupil teachers are trained in such a manner that after completing their course they become well accomplished and effective teachers as well as role models both for students and society at large and to work for growth and development of the nation.

College of Agriculture Sciences

The College of Agriculture Sciences was established in 2014 to promote education and research in the area of Agriculture. The college offers four years B.Sc. (Agriculture) programme and the curriculum focuses on all the Agriculture core areas as well as Environmental studies and Agriculture Ethics as per the recommendations of Vth Deans Committee of ICAR. This programme is an important step towards an improvement in the traditional agriculture practices including organic farming. Modern technologies and tools are studied for better farm yields, with paramount importance to environment of protection and sustainable practices. Various skills enhancing courses have been introduced in the curriculum like nursery management, mushroom cultivation, organic farming and bio fertilizers etc. Regular visits to Agri-business & Agrilclinic centre Ministry of Agriculture, dairy and poultry farms, Integrated Pest Management Institute, Krishi Vigyan Kendra and Organic farming fields as well as Kisan Mela are arranged to enhance knowledge about novel inventions in the agriculture fields such as machinery, pesticides and seeds etc to develop Agripreneur skills among the students. The farming operations throughout the year are carried out by students under the guidance of worthy faculty. The farm provides opportunities to learn and gain experience in Organic farming, Apiculture, Vermi composting, Horticulture, Plant Pathogens, Soil Analysis and Extension activities. Beyond professional practices, the college organizes guest lectures, invite experts in their respective areas for their valuable advice. All faculty members are highly qualified with Ph.D. & ICAR-NET with adequate experience of field / industry in their respective specializations. Agriculture graduates have multiple opportunities in banks, seed and fertilizer companies, insurance sector, dairy and consultancy areas. They can also join public sector enterprises as Agriculture Research Scientists, Food Inspectors and Instructor, etc.

TMIMT College of Physical Education

The College of Agriculture Sciences was established in 2014 to promote education and research in Physical fitness and wellness play key role in our society, underscoring the need for qualified professionals in physical education, yoga, wellness, and recreation. Excellence in sports is possible on the sound foundation of Physical Education. In the contemporary scenario, success in yoga, physical education and sports depends upon the quality of trainers who are well prepared through formal and informal acquisitions of multidimensional knowledge and training in the specialized discipline and its effective transaction. Having realized the challenges of the 21st century, Teerthanker Mahaveer University felt a genuine need for setting up a most modern and well equipped Physical Education Institution with a firm commitment to produce innovative sports leaders, managers and administrators who will be proactive in facing health and fitness challenges with a mix of modern and traditional methods and approaches.

The College of Physical Education was established in 2011 and approved by the National Council for Teachers Education (NCTE). The college offers B.P. Ed, M.P. Ed, P.G.D.Y.Ed. & Ph.D. Programme to nurture educationists and trainers to meet the rising domestic and global requirements. Curriculum and instructional aspects are designed to meet the demand of the subject, to make students more effective and efficient and able to conceptualize and organize different sporting events. . Classroom teaching, field and track practice, community projects, seminars and workshops in a technology-aided environment are part of curriculum. The college has well qualified, committed and competent educators to shape the personalities of students into successful professionals. Experts from various fields of physical education and visiting faculty are invited on a regular basis for enrichment lectures and intellectual guidance to the trainees. College has spacious, furnished classroom, contemporary laboratories, library etc. with modern equipment for learning and research purpose. Excellent indoor and outdoor facilities are available for table-tennis, basketball, volleyball, badminton, gymnastics, yoga, squash, tennis, cricket, football, hockey, skating, track & field etc.

GOALS & OBJECTIVES
