- To showcase about psychological aspects in palliative care.
- To discuss the advance directives & end of life decision making.
- To describe the nutritional aspects in palliative care
- To enhance the communication & spirituality.
- To analyse the advanced research in palliative care

ABOUT COLLEGE OF NURSING

The College of Nursing established in year 2009, offers diploma, graduate & post graduates programmes in nursing to meet the diverse needs of the health care sector. We offer PhD Nursing, M.Sc. Nursing, B.Sc. Nursing, GNM & ANM programmes. Hands-on-training is given to the students at the 800-bed multi super-specialty hospital at the University Medical College, as well as in allied urban and rural health centres. Nursing students attend OPD sessions in the hospital. Students visit different places under community connect and provide primary health services. Students actively participate in health awareness programmes.

College has been equipped with Simulation skill lab with various simulators to provide Hands-on-Practice on critical nursing skills. The simulation lab provides an opportunity for the students to have most advanced learning technology. The College of Nursing is also inceptor of an authorized International Training Centre (ITC) in collaboration with GHPL(Medanta the Medicity) for the American Heart Association with initiatives aimed at training health care fraternity on Basic Life Support (BLS) & Advanced Cardiovascular Life Support(ACLS).
